

REAGENT RESERVOIRS

With **CAPP**'s new sterile, disposable reagent reservoirs, you can enjoy more efficiency in your manual liquid handling workflows. The new **CAPP Sharp Reagent Reservoirs** make quick work of liquid transfer, whether you are working on ELISA, PCR, or any other suitable protocol.

Constructed from our unique blend of virgin polystyrene, the new reagent reservoirs have a high degree of chemical stability. The material construction allows for a greater range of reagent compatibility across various protocols, and follows **CAPP**'s promise of robust laboratory equipment.

The reservoirs feature an angled interior which maximises sample withdrawal during pipetting, whilst also reducing dead volume. This significantly decreases any wastage of precious reagents and sample volume. Each interior slope also features accurate, indelible graduations that give the user clear visibility of reagent volumes from any angle.

With four conveniently located pour spouts, all corners of the reagent reservoir can be used to empty excess liquid for storage. Each spout is crafted to reduce spillage during liquid discharge.

The functional ridge design of **CAPP Sharp Reagent Reservoirs** enables stacking; minimising the space used during storage. When stacked, the lip at the base of each reagent reservoir serves as a tab for easy separation.

Highlights

- Angled interior with accurate volume graduations
 - Superior material construction with a broad range of chemical compatibility
- Stackable design needs minimal storage space
 - Effortless separation from storage stacks
- Convenient pour spouts for easy reagent retrieval

CAPP Sharp Reagent Reservoirs are supplied in two different packaging configurations: Bulk or Individually Wrapped, Sterile, and are available in 3 different sizes:

- **10mL, V-shaped** - Ideal for 8- and 16-channel pipettes
- **25mL, Flat Bottom** - Designed to work best with the pioneering line of **CAPP Aero 384** well multichannel pipettes (32-, 48- and 64-channel pipettes)
- **50mL, V-shaped** Ideal for use with 12-channel pipettes

Ordering Information

Cat. No.	Description
CA40515	CAPP Sharp reagent reservoir 10mL, bulk, 5x100 pcs.
CA40516	CAPP Sharp reagent reservoir 10mL, individually wrapped, sterile, 50 pcs.
CA40520	CAPP Sharp reagent reservoir 25mL, bulk, 5x100 pcs.
CA40521	CAPP Sharp reagent reservoir 25mL, individually wrapped, sterile, 50 pcs.
CA40525	CAPP Sharp reagent reservoir 50mL, bulk, 5x100 pcs.
CA40526	CAPP Sharp reagent reservoir 50mL, individually wrapped, sterile, 50 pcs.
