ARCTIK® ULUF 15

true cooling specialists

ULTRA LOW TEMPERATURE BENCHTOP FREEZER

COMPACT SPACE-SAVING DESIGN AND LOW NOISE LEVEL

The perfect storage solution for your personal laboratory. It is perfect as a benchtop model due to the small size and weight.

COOLING TECHNOLOGY

The small size is achieved by utilizing Arctico's special single compressor technology.

The single compressor technology is specially designed to reduce the number of mechanical components that generates unnecessary heat and noise.

It comes with the same advantages as regular sized -86°C from Arctiko and is best in class in cooling performance.

► FILTERLESS CONSTRUCTION

Our filter less construction makes cleaning unnecessary. The evaporator coils are spaced so far apart that dust will not be trapped and obstruct the airflow.

With our unique construction, the dust intake is minimal, which eliminates the need for filters entirely, saving you maintenance time and cost.

▶ THE OPTIMAL CHOICE

Despite its small size og the ULUF 15, you will get a very reliable ultra low freezer. If the need for samples is minimal, then this is the ultimate freezer.

By choosing a ULUF 15 there will be maximum savings on footprint because of its compact space saving design and a great energy saving compared to other larger units.

The user friendly G214 controller standard for the ULUF 15. It includes different alrams as visual, acoustic, open door and more.

Easy overview of samples with boxes.

SINGLE COMPRESSOR SYSTEM

DIRECT COOLING

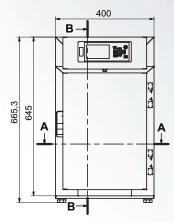

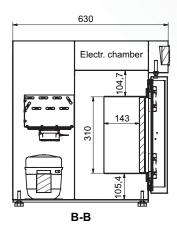

FILTERLESS CONSTRUCTION

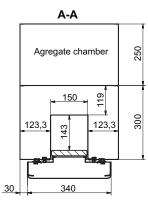

Key lock is a standard feature in our ULUF 15. Placed on side of door for optimal security for your samples.

The ARCTIKO ULUF 15 model supports following optional features:

- Modbus adaptor for G214 controller
- GSM alarm module
- Voltage converter
- Voltage stabilizer
- Boxes
- Cryo gloves
